This is a great DLC, an awesome weapon.

I will do some pros and cons for the DLC

PROS

- A unique weapon which tears through flesh and solid matter with ease
- It looks awesome with it's power field glowing around it in the form of blue aura
- It has it's own perk, Swordsman's Zeal, which gives you a bit health with each strike made against your enemy
- Both factions can use it
- It's not pay-2-win

CONS

- It has the same damage output and same animations as Chainsword despite the store page stating otherwise
- Cannot be used in Singleplayer

I recommend it. 8/10 would kill my enemies with it again!
